We assist a smooth transition into our residential and supported living services from

- **Specialist schools or colleges**
- **The family home**
- **Residential education**
- **Other providers**

Consensus understand the importance and impact of a successful transition plan, particularly for younger people about to enter adult services. We take a personalised approach to help individuals familiarise themselves with their new surroundings and supporting team.

This is the start of a full person centred plan focusing on goals and aspirations and how individuals wish to live their life.
